CHICAGO.

THE LARGEST JOBBING WALL PAPER HOUSE IN THE WORLD

★ ★ EXHIBIT ★ ★

The Finest Line of Goods

SHOWN BY ANY ONE HOUSE THIS SEASON.

THE ASSORTMENT IS SELECTED FROM THE CHOICEST GOODS OF THE LEADING MANUFACTURERS, AND IS OFFERED AT THE VERY LOWEST PRICES.

S. A. MAXWELL & CO.

DEALERS IN

WALL PAPER

134, 136, 138, 140 WABASH AVENUE.

YOU will have great inducements offered to you for your order, and prices made that you will not think it possible for us to duplicate, but if you have a disposition to trade with us, provided *we can do as well as the manufacturers*, we ask that you *delay placing your order until you can see our samples*, and we feel confident that you will be more than pleased with our goods and prices. We have inducements to offer for your business that will not be offered by any other house. Do not lose sight of the fact that we have the best selling patterns from all of the leading manufacturers at their lowest prices.

SAMPLES AND PRICES SENT TO DEALERS UPON APPLICATION.

THE SAVING IN FREIGHT CHARGES effected by buying your goods in Chicago will be a large item, as the freight from New York to Chicago under the Inter-State Law is very heavy.

DURING THE BUSY SEASON, when you are in a great hurry for goods, we offer you inducements in the way of PROMPTNESS IN FILLING ORDERS that cannot be offered by any of the manufacturers.

$150-

CHICAGO.

S. A. MAXWELL & CO. SHADE GOODS AND WALL PAPER.

NOTICE PERFORATED SLIP IN FRONT OF THIS BOOK.

TERMS.

On all Goods Listed herein, except on Wall Paper and Window Paper.	If paid in 10 days, SIX per cent. discount.
	If paid in 30 days, FIVE per cent. discount.
	If paid in 60 days, THREE per cent. discount.
	Longest time allowed, SIXTY days.

When comparing our prices with those of other houses, invariably compute the difference in cash discounts and a marked difference will usually be discovered in our favor.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

NO CHARGE FOR CASE, CARTAGE OR PACKING.

except on wall paper, window paper, and molding, where a reasonable charge is made for casing or packing, but not for cartage.

Parties having no account with us will please send references with order, that there may be no delay in making shipment. Chicago references preferred.

All claims of whatever nature must be made *at once upon receipt of goods, and claim must set forth date, book, page and order number, as shown by invoices.*

WITH FACILITIES INCREASED

fully fifty per cent., by the accession of fifth floor of 138 & 140 Wabash Ave., we bring to your notice our Eighth Annual Catalogue of Shade Goods, etc.

We want to impress upon you the fact, that by *making your selection from this list and ordering by number*, you will *save very much time, annoyance and expense.* Keep this list lying on your counter and refer to it for whatever you want in this line of goods; allow your customers to consult it freely. By a new arrangement, as shown by the perforated slip in front of book, you may make this catalogue do duty as a very superior salesman for you.

CHANGES IN PRICES.

We desire to distinctly impress upon those who receive this Catalogue, that *"ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE."*

We shall, whenever possible, reduce our prices, and *invariably* our customers shall receive the benefit of such reductions. At the same time we are compelled to reserve the right to advance any price that it may become necessary to advance.

IMPORTANT SUGGESTIONS.

Use our printed order blanks; we will supply them gratis upon application; they will be found very convenient, and as they conform to our uniform system, we will be better able to do justice to the order.

State particularly how to ship goods, whether by freight, express or mail. Goods sent by mail are always at risk of purchaser. Our responsibility on freight and express shipments ceases when we deliver goods to the transportation company.

In comparing our prices with those of other houses we would specially ask that our liberal cash discounts be taken into consideration.

Goods sent as ordered cannot be taken back.

In checking off Invoices open every paper box, as it is often convenient to pack several articles of a different description under a cover designed for one.

Please destroy your Shade Catalogues Nos. 34 and 35 for 1889 and order from this.

Order by number and descriptions as given, and do not mutilate Catalogue.

Respectfully,

S. A. MAXWELL & CO.

S. A. MAXWELL & CO. CHICAGO. SHADE GOODS AND WALL PAPER.

Wyant's Patent Shade Fasteners will be used instead of tacks for mounting shades upon rollers only when so ordered, and at $1.00 per dozen additional.

SHADE MANUFACTURING DEPARTMENT.

We have our own shop and solicit patronage. Estimates furnished. Promptness insured for shades in usual colors.

WE DO THE BEST WORK THAT CAN BE TURNED OUT BY EXPERIENCED WORKMEN.

OPAQUE STORE SHADES.

We make a specialty of large shades for show windows. In ordering, always specify the *exact size* you wish the shades to be; state whether the measurements given are *inside measure* or *outside measure; inside measure* means that the shades are to be hung upon those faces of the jambs which face each other; *outside measure* means that the shades are to be hung on those faces of the jambs which face to the room; state color of cloth desired; if any lettering is wanted, inclose a printed card bearing the name of the party whose name is to be used, that no error may occur through mis-spelling. For convenience of our customers we have prepared a schedule of prices of hand-made opaque store shades, mounted on first-class Spring Stop Rollers, which we append. We can in a few days' time make these shades in Blue, Brown, Stone, Olive, Spanish Olive, Light olive, Pea green, Sage and Ecru. Sample books of colors sent on application. Other colors of cloth would have to be made to order at an extra expense, and the time necessary to make would be from ten days to two weeks. In ascertaining prices from this schedule it will be necessary to use the prices for the dimensions next larger than the shades you desire unless the shades wanted are exactly the same as the schedule dimensions. For instance, a shade 66 inches wide and 9 feet long, would *cost* the price given for a shade 72 inches wide and 9 feet long. In *ordering* be very particular to give the size you wish the *shade to be when finished.*

SCHEDULE OF PRICES OF HAND-MADE OPAQUE STORE SHADES.

MOUNTED ON HARTSHORN SPRING STOP FIXTURES—READY TO HANG.

Prices are for Single Shades.

ADAMS' WINDOW SASH STOP.

This is an excellent device for screwing fast to the window frame at or near the top of the groove in which the lower sash slides, so that the sash cannot be pushed entirely up in windows where it would injure the shade to do so; the stop being a rubber cushion cannot injure the sash.

DUPLEX SHADE ROD.

(Patented Nov. 6, 1883.)

Showing Bottom of Shade with first half Rod attached. Showing Bottom of Shade FINISHED with Fringe.

S. A. MAXWELL & CO. CHICAGO.

We wish to introduce to all dealers in window shades an article simple, convenient and elegant in appearance, for the finish of the bottom of a window shade, consisting of two half rods and metal caps for ends.

THE ADVANTAGES ARE:

First.—The DUPLEX SHADE ROD *does away with all sewing.*

Second.—The DUPLEX SHADE ROD is easy to finish.

Third.—The DUPLEX SHADE ROD looks better than the old way of sewing a hem and inserting a *pine stick.*

Fourth.—You can finish a shade at once without having to send to a sewing machine, thereby saving much time, labor and annoyance in filling orders, and AT ABOUT THE SAME EXPENSE AS THE OLD WAY.

They are made as follows and put up ¼ gro. in box:

NO.		PER GROSS.
10	½ inch copper, 39 inches long	27.00
11	½ inch gilt, 39 inches long	27.00
12	½ inch rosewood, 39 inches long	14.00
13	½ inch cherry, 39 inches long	14.00
14	½ inch ash, 39 inches long	14.00

We ask the trade to give them a trial and feel assured they will find the DUPLEX SHADE ROD Cheaper, Neater and Easier to put together than anything now on the market. They can be used with or without fringe, or with any style of ornaments. The rods are packed ¼ gross in a case with double pointed tacks to secure lower end of shade and upper end of fringe (if fringe is used), and suitable nails to fasten center of rods securely.

CROWN PICTURE HANGERS.

MOST ELEGANT IN DESIGN AND FINISH.

As shown by cuts below, this is a new device which locks the picture cord so that it cannot escape from nor slip upon the supports, keeping the picture in proper position, and secure.

For large pictures; the small extra hanger is convenient in hanging a small picture above a large one.

These goods are all made in several different styles of finish, and in different sizes.

WALLACE'S NEW IMPROVED CURTAIN EXHIBITOR

WILL SAVE ITS PRICE IN ONE YEAR BY PRESERVING THE SHADES.

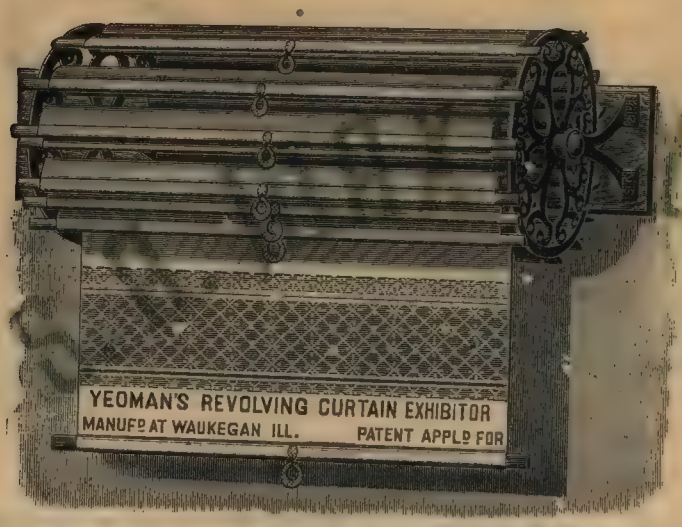
WHEN OPENED. CLOSED. [44x11x92.]

This is an entirely new device; has been thoroughly tested, and is far superior to anything heretofore put upon the market. It will hold from thirty to thirty-six shades on the three sides, as shown in opened cut, and by using the back of the right hand leaf many more can be added.

Its superiority consists in being easily moved about on castors, occupying but little space when closed, and furnishing a very large exhibiting space when opened. When closed it excludes all dust and flies, and the shades will be as perfect at the end of the season as at the first. Its sides are nicely paneled and finished in imitation of cherry, and the whole makes a very handsome piece of furniture.

Price, shipped from factory at Sheboygan.....each $30.00

YEOMAN'S SHADE EXHIBITOR.



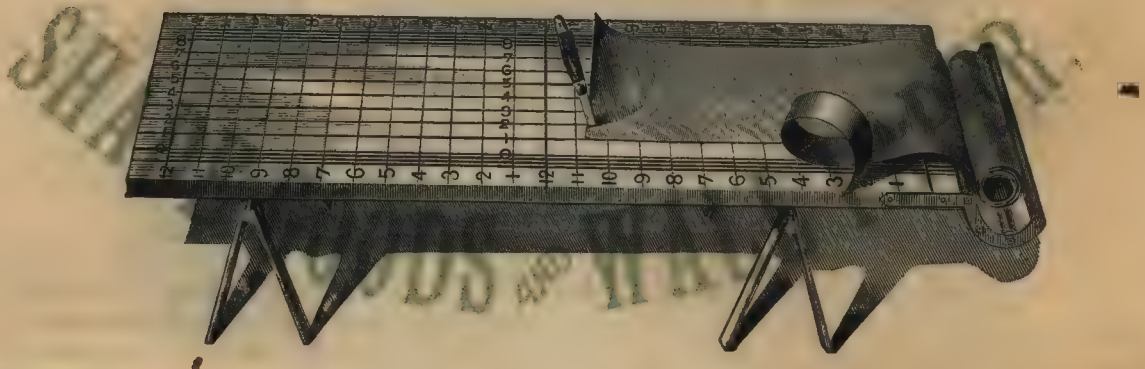
To fasten to side wall; no floor-room required; contain 24 spring fixtures, all fitted and ready to fasten shades upon them; it can be turned around to show any shade desired; every dealer should have one; can also be used for maps, etc.....each 11.00

Same without fixtures.....each 10.00

TINKHAM'S SHADE EXHIBITOR.

Made of ash. Spring top fixtures must be used in this rack. Fixtures extra. Shipped from factory, Springfield, Mass.....each 20.00

CODY'S SHADE CUTTING TABLE.



42x 84 inches.....each 26.00
48x120 " ..... " 32.00

Although this is a new article in the West, it has been extensively used in New England, and numerous testimonials bear witness to its great merit, the verdict being that it cannot be too highly recommended. Shipped from factory, New Haven, Conn.

EACH.

PLASTER FASTENER.

It is the needful thing for fastening loose plastering on walls or ceilings. The Tightener is a round piece of tin, countersunk for screw head, and concaved so that when the screw tightens the outer edge of the tin presses against the plaster. By putting a little plaster of Paris on screw head and around the tin it leaves a smooth surface and makes it as sound for paper or calcimine as a new wall. If a mason patches a wall or ceiling it is usually left rough and the patch will show through the paper, not to mention the additional expense. Then, too, no time is wasted in waiting for the repaired places to dry, but with the Tightener the walls and ceilings are quickly fixed and the paper hanger need not be delayed. All practical paper hangers will appreciate these advantages. Per gross..... 64

SUGGESTIONS TO PAPER HANGERS.

TABLE OF ESTIMATES.

We submit below a Time Saving Table, showing the amount of Wall Paper it will require to cover the walls of a room, the distance around the room and the height of the ceiling being given.

Look for height of ceiling at top of column, number of feet of wall around the room in the left-hand column—in the angle will be found the number of pieces required:

Number of feet around the room.	HEIGHT OF CEILING.						
	8 feet.	9 feet.	10 feet.	11 feet.	12 feet.	13 feet.	14 feet.

120	30	33	37	40	45	48	51

HOW TO PREPARE A WALL.

A new wall must have one coat of good glue sizing before papering.

A calcimined wall should be washed and sized.

When the calcimine is very thick and flaky it can be removed more readily by scraping.

When there is but one coat of calcimine and the wall is in good condition sizing is all that is necessary.

All holes or cracks in the plaster should be repaired with the Plaster Fasteners shown above, or carefully filled with plaster of Paris.

Large holes may be covered with muslin; the muslin being pasted *at the edge only*.

Partitions and other wood surfaces must be covered with muslin, the muslin being sewed and put on in one piece and tacked only on the edges.

In applying muslin to *ceilings* it must be sewed and put on in one piece. If properly stretched it may be tacked only on the edges, but a better way is to leave a margin of about two inches on each breadth and tack each breadth through this margin, so that when the muslin is all stretched the tacks will only show up on the outer edges; the tacks along each breadth being covered by the succeeding breadth.

PASTE.

A pailful of good paste is made of four pounds of flour and a tablespoonful of alum. Stir in enough lukewarm water to make a smooth batter, taking care to remove all lumps; then stir thoroughly while gradually pouring in enough *boiling* water to fill the pail.

SIZING.

A good size is made by dissolving one pound of glue in a pailful of water; one-half the quantity of glue will suffice for a wall that has not been calcimined.

BRUSHES

may be used in hanging cheap papers, but Flats and better papers should be put on with

ROLLERS.

LAKESIDE WALL PAPER DISPLAY RACK.

IMPROVED.

Built of Hardwood, by Skilled labor and the handsomest Show Rack in the Market.

Fig. 2.

Will hold four hundred samples thirty-two inches long, two hundred on each side.

THE CUT SHOWS THE RACK IN POSITION,

with one side closed, samples locked up, raised to a level like a table, and out of the way of dust, etc.; the side in operation is held at this angle, or at any other desired angle, by a splendid self-acting ratchet as shown by figure 2; the samples are held in place by a self-binding device which a child can understand and operate; no sample book is required as the binder does the work; a device is attached which will hold the border samples in proper place and at proper angle; 50 pieces of cardboard are supplied upon which the various widths of borders can be mounted.

Each 20.00
Extra sets of cards for border ..... per set 4.00

YEOMAN'S NEW SAMPLE STAND.

Made of hard wood, nicely finished, and very convenient; can be folded up and put in small space when not in use.

Each 5.00

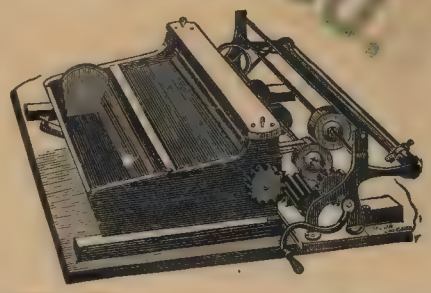
YEOMAN'S TRIMMER, No. 2.

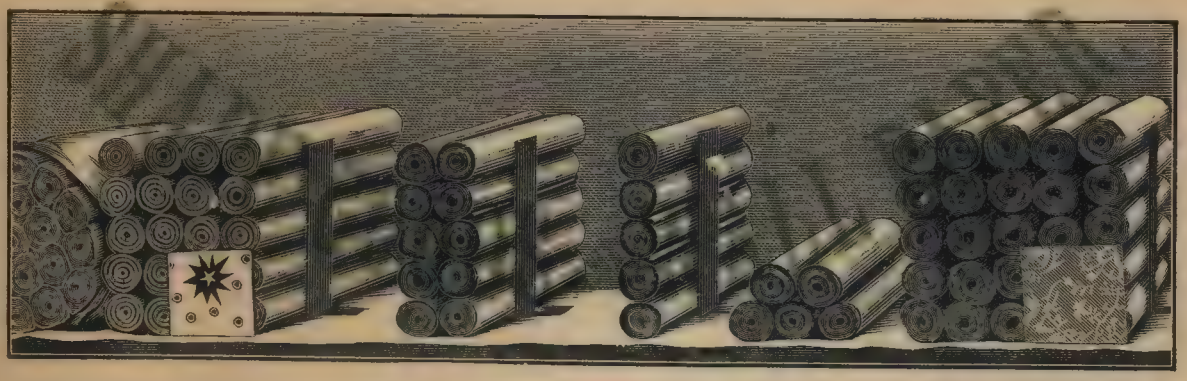
This trimmer has the same cutting device, but not so rapid a cutter as No. 1..... 14.00

SCHUYLER'S WALL PAPER TRIMMER.



The machine is substantially made; the bearings and parts subject to wear being of iron, and new cutters can be readily put on. Black walnut, white walnut, white ash, pine and poplar compose the wooden portion, and these are so combined as to make an attractive machine.....each 24.00

ADJUSTABLE SHELF PARTITION.



The partition is made of Japanned Iron and takes up none of the shelf room, keeps patterns separate, and in many ways has proven to be the best article for the retail Wall Paper dealer to use.

Stock can be condensed as sold, as the partition is movable. See cut for illustration of how it can be used in dividing shelves. Packed 100 in case; per case, 30.00; per dozen, 4.00.

W. L. HARDY'S
ROTARY KNIVES.
FOR PAPER HANGERS.

The plain ROTARY KNIFE shown in the above cut is designed for use with a straight-edge in cutting fine papers, either pasted or dry.

If kept sharp, and used on a clean cutting board, it will always make a smooth cut, and never tear the paper. The blades are made of fine steel, turned true and carefully tempered. All working parts are made of steel or brass.

PRICE — — $2.00

Rotary Casing Knife.

Is similar to the above, except that it has a wood roller on the back of the blade.

By running this knife along the edge of casing or base, after the paper has been pasted up to within two or three inches of, and drawn over the same, a perfect fit will be obtained without measuring.

PRICE — — $2.00

Round Knife.

The blade of this knife is round, having about 6 inches of cutting edge. It is not intended to revolve while cutting, but can be turned and locked in any position.

As but a small part of the edge is in use at a time, one sharpening will do a great deal of work.

PRICE $1.50 Extra Blades 50 cts. each.
